

<p>VEGETAL PEN / INGEO PEN / BIO-S! INFORMATION FOR THE CORRECT PRINTING</p>

- 1) The VEGETAL PEN, INGEO PEN and BIO-S! can be printed using standard acrylic inks.
- 2) We remind that the VEGETAL PEN, INGEO PEN and BIO-S! are biodegradable and therefore sensitive to heat: during the printing process it cannot be kept at temperatures close to 48°/120° F (max 40° is preferable).
- 3) To print in gold and silver and metallized colours it is necessary to use double-component inks. For a perfect, long-lasting result, it is necessary an ink drying process of minimum 36 hours at a temperature lower than 48° (max 40° is preferable). Higher temperatures would cause the distortion of the pen, damaging it irreversibly.
The right material for the best result is:
